The whole premium on | cred in the trap ranges bordering on Lake Superior, and within a few miles of it; and from the geological character of the country and the explorations already made, it cannot be doubted that others

equally, it not more, valuable will be found throughout this whole mineral region." In some of the mines now worked, copper is found almost pure; and in fact, most of the native copper and ores yield a greater per centage than any other yet discovered in the world. Silver is also found in considerable quantities. All the necessary materials for the construction of furnaces. and fuel for smelting, are found in abundance in the immediate neighborhood of the mineral; and the face of the country is

saich, that the mines require but little, if any, artificial drainage, and are therefore worked to great advantage. The climate in the winter, though cold, does not interrupt the perations of the miners; in fact, that season is considered the most favorable for their operations. The proximity of these mineral lands to the shore of Lake Superior, or which are several safe and excellent burbors, and the water communication therefrom by the Sault Ste. Marie, Lakes

Huron, Erie, &c., farnish ready means of transporting the products of these lands to the principal markets of the United States at a very trifling cost. It likewise appears from the reports to this office, that the agrivegetables and grass in abundance; and no doubt, when the soil is fairly titled, it will be found favorable for grain crops also ; and for all these products a fair price and good market will be found Timber, such as white and yellow pine, sugar maple, yellow
